

MODUM

product catalogue

Dear friends!

I'm happy and delighted to present you MODUM product catalogue. Creating our products with love and passion we follow OUR MISSION which is to be the Manufacturer № 1 in Belarus.

This statement means for us:

- to provide affordable effective high-quality cosmetic products for essential needs;
- to offer the best care products for daily dental hygiene;
- to develop new products combining classic and contemporary trends with less use of chemicals.

OUR VISION is to stay for long. With goal to maximize products turnover, we promised to stay responsible for high quality to build long term relationships with our partners for market presence. Our solid product portfolio includes more then 300 SKUs of 25 cosmetics lines and other goods: Oral Care, Hair Care, Body and Face Care products, Men's Care, Kids' Care and Disposables. Also we offer solutions for private labels as third-party manufacturer.

I'm sure that you will enjoy our products which are widely known in Belarus and abroad – Russia, Ukraine, Middle Asian and European countries. Company has plans for global distribution as well. Me and my team always search new trends and plan to develop new modern cosmetics solutions and launch new branded lines for daily use.

Stay healthy and happy!
Yours sincerely,
Iryna Skuratovich, CEO

MODUM

Company Modum – Nasha Cosmetics was founded at 1995 in Minsk, Belarus. Since that time enterprise grown into reputed business with own Research and Development Center, production, warehouses, customs zone point.

Production zone is high-tech equipped and located in Minsk. Highly educated team of professionals runs technological processes and logistic operations. It has high volume capacity and produces up to 3 millions items per month. The warehouse is about 6 000 sq.m.

Our Product Testing Laboratory is accredited by System of State Standard of Republic of Belarus.

System of Quality Management met the requirements of ISO 9001-2015 along with the requirements of DIN EN ISO 9001:2015 of German Accreditation System. At 2020 company received GMP ISO 22716 Certificate (Cosmetics – Good Manufacturing Practices (GMP)).

Company is Authorized Economic Operator and has separate Customs Zone Point in Minsk next to warehouses what is beneficial in terms of logistic operations.

More than 1000 formulations have been developed for products launchings. 18 patents have been filed and registered, 14 of them are new Oral Care product developments.

Our cosmetic products have been highly recognized at cosmetics trading shows abroad and got there 35 awards. Company was yearly awarded at prestigious Belarusian consumer contests **Brand of the Year**, **Choice of the Year** as first runner-up. Creating products, we select only naturally based quality raw materials from reputed suppliers (essences, oils, fragrances) and mix with minimal dozen of chemical ingredients for preservation purpose.

modum
bamboo
Hair Strength & Growth

Clinical tests have proved the Modum Bamboo effectiveness when it used in complex during at least one month.

- Hair loss reduction
- Hair breathing increase
- Hair is shiny and smooth.

Effectiveness of MODUM BAMBOO products is achieved by influencing on hair structure inside and out – sculp and hair shaft.

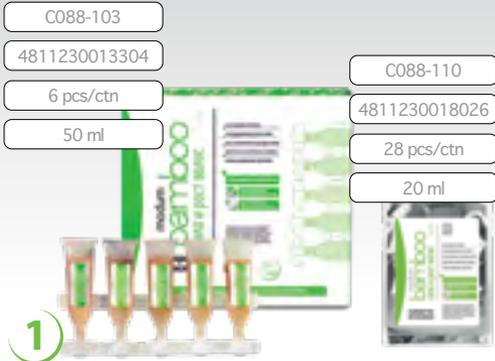

1. Positive affect on sculp is achieved because active ingredients are able to improve blood supply of hair follicles, enhance hair bulbs nutrition, extending hair feeding phase, reduce hair loss enforce hair growth as a result.

2. Then product creates an elastic membrane on hair surface to protect hair shaft from drying, breakage, split ends. With smoothing cuticle, hair becomes thicker and stronger.

DRY DAY Absorbing Disposable Hygienic Underpads, Super, 60x90

Underpads is a solution for additional protection for bed linen, beds and othes surfaces. Upper layer is made from soft hyrofilic non woven material that allows to retain dry and clean skin. Inner absorbing layer consists of 100% cellulose which is bleached by non-chlorine method and superabsorbent (SAP) that transforms liquids into gel. Lower isolating layer is made from strong breathing polyethylene that provides reliable protection against leakage and allows skin to breathe.

DRY DAY Absorbing Disposable Hygienic Underpads, Normal, 60x60, 60x90

Underpads serve as additional protection for bed linen, bed and othes surfaces. Consists of 5 layers: liquid goes through soft upper layer and stays in inner absorbing layer (without SAP), lower breathing layer protects from leaking, two paper layers are for equal liquid distribution.

DRY DAY Absorbing Disposable Hygienic Underpads for Kids 0+, Super, 60x40, 60x60, 60x90

It is a comfort additional protection for baby's bed, baby carriage, playpen and other surfaces while hygienic procedures, walking in the open air and indoor games. Can be used from the first days of life. The absorbing layer contains superabsorbent (SAP) that transforms liquid into gel and prevent unpleasant smell.

PETSY Absorbing Disposable Underpads for Animals, Super, 60x40, 60x60, 60x90

Z0000 Absorbing Disposable Underpads for Animals, Standard, 60x40, 60x60, 60x90

Absorbing underpads for animals are made from soft, smooth non woven material. Special upper layer easily absorbs liquids and surfaces stay dry for a good protection of pets skin and wool. The structure of underpads prevents unpleasant smell spreading. Waterproof underlying layer protects floor, furniture and bottoms from liquids, wool and scratches.
